

Portapotty Guy- Winter Edition

If your portapotty or camper hasn't been pumped yet, don't panic – winter conditions make it tough for the pump truck to get around the campground.

To help prevent freezing and make pump-outs easier, he recommends adding:

RV antifreeze, or Rock salt

This keeps everything from freezing solid and avoids delays once he can get through.

PHOTO OF THE WEEK We love seeing your rides, campsites, and trail moments. Send in your favorite winter shot for a chance to be featured in next week's newsletter.

Campsite "grace period" Soon Ending

Renewals for memberships and campsites are due by February 28.

After March 1, any campsite not renewed becomes available to other members.

To hold your site, we must have:

- A fully completed 2026 membership application
- Full payment, including structure fees
- No outstanding balances

Applications may be mailed or dropped off, but not faxed or emailed.

Once we get into early March, we'll have a clearer list of available sites. The first week is always a transition period – thank you for your patience while we process renewals.
