 34° F | 23° F  
 Sun Mostly Sunny  
 45° F | 30° F

NEED THE LOCKBOX COMBO FOR THE GATES?

- Log onto the forum for the latest combo.

With the end of the month on Saturday comes the close to our campsite grace period but that doesn't mean, it's a "free for all" just yet. Here's your reminder for all those looking to swipe up a prime site. The first week of March is usually a little cloudy with what's available in the transition period. Please give the office sufficient time to catch up with sticker placing and other problems along the way. Our goal is to release the new list of available campsite list next weekend...maybe.

**RIDING OR NON-RIDING ALL GUESTS MUST BE SIGNED IN UPON ARRIVAL! THE GUEST WAIVER IS ON THE OUTSIDE OFFICE WALL 24/7.**

## LEAP YEAR

Centuries ago, the Romans figured out that it takes roughly 365¼ days for Earth to orbit the sun and devised a calendar that adds an extra day every four years to keep everything in sync.

We are technically under the Gregorian calendar, which continues with leap days every four years except on years ending in 00 that are not divisible by 400. For example, 1900 had no Feb. 29, and neither will 2100. Hit 'ya with a few for more...some traditions say that February 29 is a popular day for women to propose to men. People that are born on the Leap Day are known as leap-ers. All Leap Years occur during an election year.

This year will be a cold one! Expect a lake-effect chill, but the big story will be Saturdays cold air.

Do you remember last Leap Year? I do, I no longer have two crazy toddlers running around but two little humans growing into themselves. Thinking of creating a time capsule to capture a little bit of our lives today and see what changes will bring in just four years. Many changes can happen in just four years, how fun would it be to look back and remember. Fast-forward another four years from now and where will you be.
