## Trail Problems

We are finding members are not reading signage for the trail reroute . The Trail 3 refuse coal piles are starting to be actively mined. Signage is littered all over the route, there is no excuse to mistake the new route. If you are caught deliberately riding there, suspension will follow.

Trail 3 has been rerouted at the crossing of the Township Road; make a slight right near the bottom of the hill and cross following the new route. Two new bridges have been placed along the route and what the office is calling the roller coaster affect is shortly after. Please be sure children are well attended at the "roller coaster" section as it not as kid friendly.

Another area where members are also having problems reading signage is North of 4011 near the Joliett Fire Company.

Signs you will see STOP, KEEP OUT, DO NOT ENTER, REROUTE, etc.

# We are beginning to feel the time crunch as the days tick by, but in spite of this, we're happy that Christmas is on its way.

We love this season of giving and gratitude. It's a time to gather 'round home and hearth and enjoy simple pleasures and one another. To seek solace in our blessings and look to help others. As our families come home in celebration we show love for each other and our fellow man. After all, that's what the season is all about, right? Love. Big, bold, generous, beautiful love.
