HAPPY 4TH OF JULY!

Is there anything better than a campfire and a s'more? Maybe sitting around a candlelit outdoor table with family and friends watching the kids catch fireflies on the Fourth of July.

It is the time of year when it's hard to imagine wearing anything but flip-flops, when a whole day at the beach and collecting shells, feels like a birthright. But there's none of that "beach going" here at RCTR, I have no problem settling for the fossils and coal dirt...another birthright in my eyes. Lets keep those fossils and coal dirt just as they are and remember this 4th of July weekend the following two things:

No fireworks are permitted on Rausch Creek property

The trash bugs have been pretty active in the campground and on trail. Please dispose of your trash properly. There is no reason for staff to finding trash on trail or on the roads of the campground.

Please join us in celebrating the freedom our red, white, and blue brings us the month of July by participating at least one of these RCTR events and group rides.

- As you will see below, on July 3rd, we'll be hosting our annual Member Appreciation Luncheon.**
- July 17 is our very enthusiastic "Christmas" in July group ride. Just a low key normal ride with presents from Santa.**
- July 17 Kids Scavenger Hunt Explore the campground of RCTR like never before in this team oriented kid-friendly hunt**

So get outside, start exploring, and get inspired. Can't wait to hear how you make this your best summer ever at RCTR.

TIP OF THE DAY

Next time you grill meat on a closed barbecue, place an open can of beer on the hottest part of the grill. The vapor from the boiling beer will keep the meat moist, add delicious flavor, and impress your friends! Instead of buying expensive mosquito coils or candles, use a cardboard egg carton or coffee tray (the kind you get when you order a couple of coffees to-go). Light it on fire, then blow it out and let it smolder in a fire-safe location. It works as a smudge to keep mosquitoes and other bugs far away!

CAMPFIRE SAFETY

With the holiday weekend your camping fun usually includes enjoying a good old fashion campfire. Campfires have so many uses -heating, cooking, roasting marshmallows and of course a nice story-telling atmosphere. Have you thought about a safer way to have a warm, crackling fire in your camping area this July 4th weekend? Below are a few basic campfire tips to help you and your family have a safe and fun outing:

- Build your campfire away from overhanging branches, rotten stumps, shrubs, dry grass and leaves. Keep it at least 25 feet from all structures.
- Clear the immediate area surrounding your campfire site approximately 8-10 ft in radius.
- Keep the fire in a contained unit such as a burn barrel, BBQ unit or rock base.
- Keep campfires small and do not let them get out of hand.
- Keep plenty of water handy and have a shovel for throwing sand on the fire if it gets out of control.
- Stack extra firewood upwind and away from the fire.
- After lighting the fire do not discard the match until it is cold. Douse it with water to be sure.
- Never leave a campfire unattended. Even a small breeze could quickly cause the fire to spread.
- When extinguishing the fire, drown it with water. Make sure all embers, coals, and sticks are wet.
- Do not bury your coals, they can smolder and start to burn again.
- And of course teach your children to respect fire.
